E+ SENSORS WORK WITH

2GIG EDGE™

(FW 1.3 or above required)

Sensor Range up to 2km
with 900MHz spectrum
(May vary depending on building materials)

Reduce Installation Time
with local, device-based testing

Longer Battery Life
(Based on use frequency & sensor type)

Sleek & Modern Aesthetics

Improved & Simplified Sensor Enrollment Process
with new EDGE 1.3 Firmware

Two-way Encrypted Communication
for enhanced security and reliability

Extended Range.
Expanded Opportunities.

2GIG-PIR1E-900
Passive Infrared Motion Detector

- Detection range of 30 by 50 ft for comprehensive coverage
- Includes pet immunity, filtering out movements of pets weighing up to 85 lbs. Minimizes false alarms, and includes installer-adjustable setting to on/off

2GIG-DW10E-900
Indoor Door/ Window Contact

- Thoughtful design and seamless fit with a pre-included spacer, enabling more door & window applications
- Rounded outer with square interior enables accurate installation, for optimized installer experience
- Battery life of up to 8 years reduces replacement & truck rolls
- Supports external Normally Open or Normally Closed input

2GIG-GB1E-900
Glass Break Detector

- Intelligent detection of glass types: plate, tempered, laminated or coated
- Dual stage thud and crash detection algorithm mitigates false alarms and ensures reliable notification
- Enhances safety by detecting glass shattering noise in a 15 foot radius
- User-adjustable sensitivity settings to reduce false alarms in noisy environments

2GIG-DW30E-900
Outdoor Wireless Contact Sensor

- Designed for extreme weather conditions (IP56) and water resistant (-40° to 150° F)
- Paintable casing to match mounting surface
- Wide magnet gap (up to 1.3") for yard gates, swimming pool access, detached garages, etc.
- Supports external Normally Open or Normally Closed input

2GIG-SMKT-900
Smoke/Heat/Freeze Detector

- Supports UL268 7th edition requirements
- One Go/All Go communication enables all E+ smoke detectors to collectively sound an alarm for faster response
- Monitors & reports excessive temperature variances
- Improved optical smoke detection chamber for recognition of smoke from synthetic materials
