

# Streamlined Energy Management

## Empower Your Energy Management.

Maximize smart home performance and efficiency with Nice Energy Management. Our advanced technology, including IP Power Management and Power Conditioning, ensures stable, clean power delivery. Features like Protect-or-Disconnect™ and Automatic Voltage Monitoring safeguard electronics against power surges and outages. Space-saving designs provide seamless integration behind displays and declutter equipment racks.

Trust in the Nice legacy of protecting millions of devices since 1975. Elevate energy management to the next level with Nice.

Discover more

IP Power Management allows installers to monitor, control, and program from any location. Visit [mybluebolt.com](http://mybluebolt.com) to create an account and download the BlueBOLT Mobile app.
