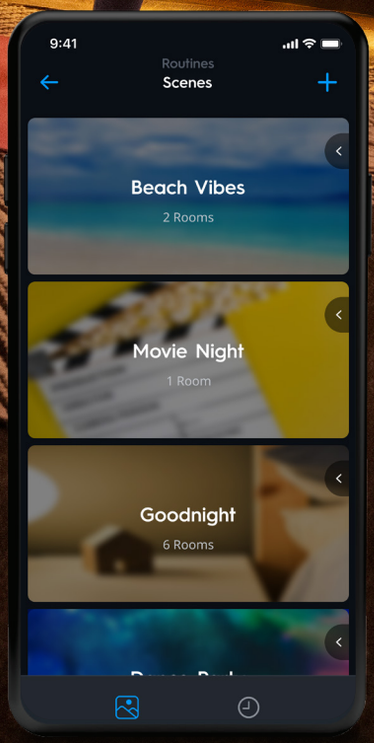
Cync™

POWERED BY SAVANT

Welcome to the connected home.

The Cync family of products offers a seamless technology experience that is easily configured and controlled with a single app, no hub required.

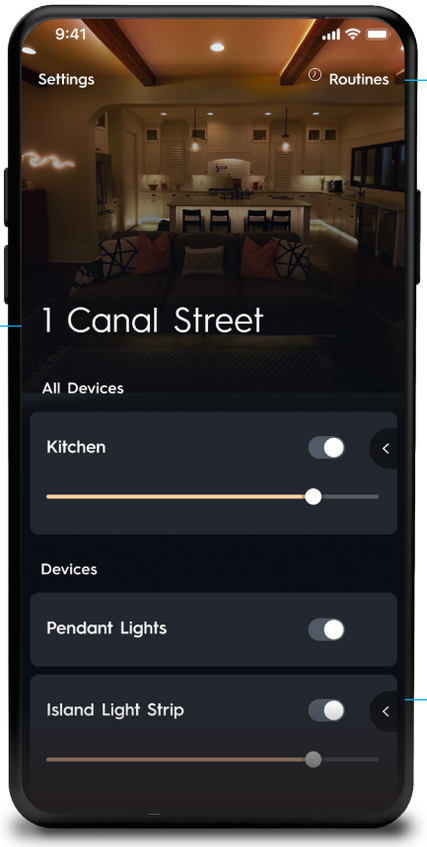
Once products are discovered and added to rooms, the Cync app allows homeowners to personalize their smart home experience with cameras, climate, lighting, security and more.



Experience life in Cync

Our family of smart products work together in one app to add comfort, security and convenience to any home.

Personalize the app experience by adding home photos.



Create **Routines** to control multiple lights at once in a Scene, or Schedule them to turn on automatically.

Quick access for on/off and dimming control.

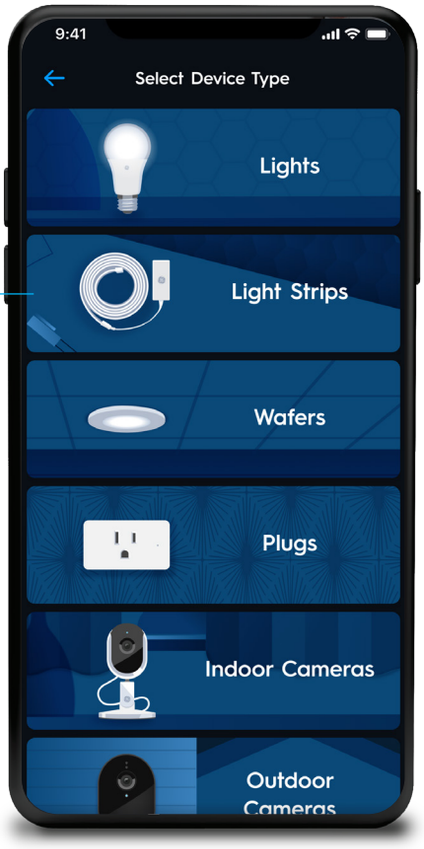
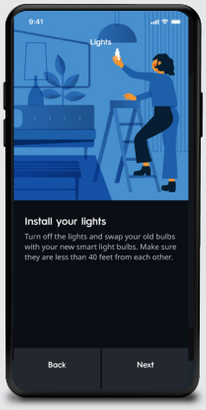
Set Up & Configuration From Any Device

No proprietary software or control hub required.

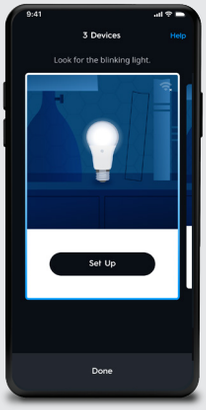
All set-up and discovery is done from the Cync app.

Get started by discovering devices and creating rooms.

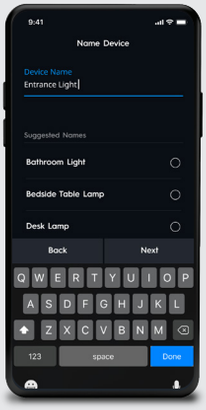




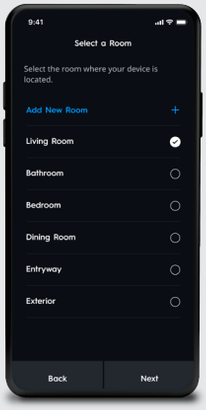
Installation



Discover Devices



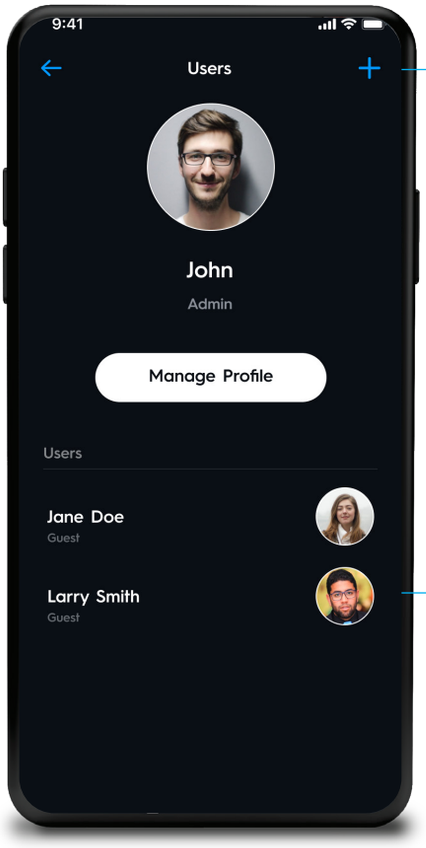
Name Device



Select a Room

Manage Access

Create multiple users so the whole family can access scenes and view cameras, even when no one is home. Cync devices can be controlled remotely from the Cync app.



Add users easily at the touch of a button.

Manager users.

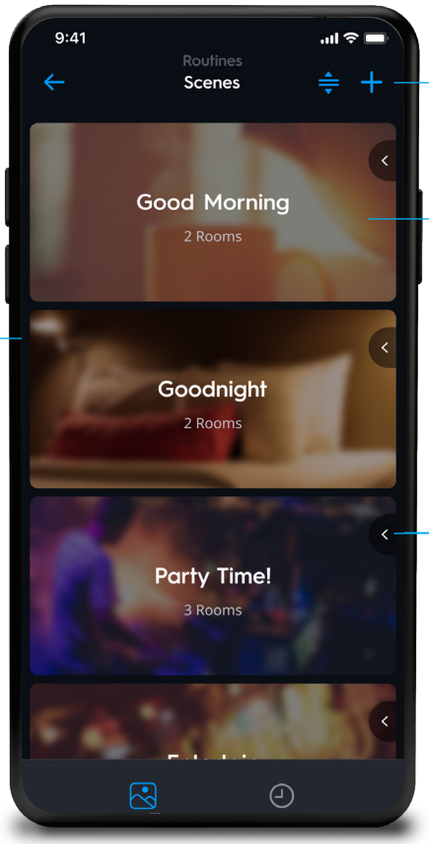
Personalize with Scenes & Schedules

Creating scenes is a perfect way to set the mood. Turn on and off multiple lights, dim to the perfect levels, and even set color temperature based on time of day.

Create **Schedules** to turn lights on/off at the perfect time, or relative to sunrise and sunset all year.



Tap **+** to create a new Scene.

Select the perfect image to represent each **Scene**.

Tap **‹** to Edit Scenes.
